HARMIN VEKARIYA

FULL STACK DEVELOPER

91+ 8200571458	vekariyaharmin96@gmail.com	Rajkot, India

Objective

I'm a passionate web developer who loves building full stack applications. I have experience working with **Java**, **JavaScript**, **HTML**, **CSS**, and the **MERN stack**. I really enjoy problem-solving and creating projects that focus on good design and smooth user experience. I'm always looking to learn more and improve my skills to become a better full stack developer.

Education

Government Polytechnic Gandhinagar

Gandhinagar, GN
Diploma in Computer Engineering
CGPA 8.78 (LAST 5TH SEMESTER)

Key Skills

- Web development
- Programming Java/JavaScript
- MERN Stack
- SQL/NoSQL Database
- App development (beginner)
- Git/GitHub

Experience

Developed several web projects, including a Mover and Packers Website with HTML, CSS, JavaScript, PHP, and phpMyAdmin for managing bookings. Built BlogBuzz using the MERN stack for blog posting and user management. Designed a responsive Electronic Shopping Website and developed a Transaction Manager using JavaScript to handle transactions efficiently.
